

AI STRATEGIC PARTNERSHIP

YOUR MAT. YOUR AI PRIORITIES. YOUR STRATEGIC PARTNERSHIP.

AI is moving quickly. Your MAT does not need another generic AI training package. It needs a strategic approach that reflects its schools, people, priorities and ambitions.

Fig Tree International's AI Strategic Partnership gives Multi-Academy Trusts flexible access to specialist AI education advice, training and strategic support across a 12-month period. Rather than prescribing a fixed programme, we begin with your Trust: where you are now, what you are trying to achieve, where the gaps are and where AI could create the greatest impact.

TOGETHER, WE BUILD THE SUPPORT AROUND YOUR PRIORITIES.

ONE TRUST. DIFFERENT PRIORITIES. A PARTNERSHIP DESIGNED AROUND YOU.

THE PRINCIPLE IS SIMPLE

You secure an agreed level of specialist support across the year. We shape that time around the areas in which it can make the greatest difference - from Board development and AI governance to workforce capability, teaching and learning, safeguarding, operations, careers and community engagement. Your package can evolve as your Trust's AI journey develops.

This is not about adopting AI for the sake of it. It is about developing the leadership capability, confidence, governance and practical infrastructure to use AI responsibly and purposefully across your organisation.

YOUR ALLOCATED DAYS CAN BE SHAPED AROUND THE AREAS WHERE YOUR TRUST NEEDS SUPPORT MOST.
